BUNDLE WRAPPING MACHINE

ABOUT

DESCRIPTION

Automatic Stretch film wrapping machine is mainly used for packaging of flat drip irrigation pipe bundles with HDPE stretch film.

Wrapping machine assist in reduction of labor by automating the wrapping process around bundle by giving good finish to the product.

The Reel Stretch Wrapping Machine can also accommodate other products with minor updates. The machine can be used for:

- 1) Paper Reel Wrapping
- 2) Wire Bundle Wrapping
- 3) Cartoon Box Wrapping

ADVANTAGES

- Protection against rain, moisture and dust
- Prevent telescoping of rolls
- Save packaging cost, labor and time
- Better identification of wrapped product
- Gives product stability
- Economical way of packing

SPECIFICATION

Parameters	Technical Specification
Working Product Diameter	Width: 200 to 400 mm Diameter: 300 to 600 mm Reel Weight: Up to 30 Kg
Diameter of Roll (Stretch Film)	Core ID: 75 mm OD: Up to 200 mm Width: 125 to 300 mm
Roller Specification	SS 304 roller 4 Nos. Dia. of roller: 32 mm
Packing Efficiency	30-40 Rolls/Hour (depend on product)
Turnable Speed	0 to 19 RPM (depend on product)
Diameter of Turntable	400 mm as per customer requirement
Motors with Vfd	Turn Table Motor & Roller Motor: 0.5 HP
Note - Machine specifications can be changed according to customer's requirements.
